About Us

For two decades, Fadras Group has been a cornerstone in Saudi Arabia's construction and industrial manufacturing sector, delivering engineered solutions that define quality, safety, and durability across the Kingdom's most prestigious developments.

Founded on 05 May 2005, Fadras Group evolved into a specialized manufacturing powerhouse, offering a wide portfolio of building protection systems and architectural solutions tailored to meet the complex demands of modern construction. Our growth is driven by a deep understanding of the Saudi market, strong technical expertise, and an unwavering focus on precision and innovation. With our advanced Riyadh-based manufacturing facility, we produce a comprehensive range of systems that support structural movement, enhance safety, protect architectural finishes, and maintain long-term building integrity. From mega projects to government complexes and commercial developments, our solutions are trusted by consultants, contractors, and developers who demand nothing less than excellence.

At Fadras Group, our identity is built on Saudi manufacturing excellence, deep engineering expertise, and strong technical capability. We prioritize customer-centric service, uphold international standards, and deliver reliability that stands the test of time. **Today, we proudly** contribute to the Kingdom's industrial transformation and infrastructure development—moving in alignment with the ambitions of **Saudi Vision 2030**, and helping shape the next generation of modern, resilient, and sustainable buildings..

The Story Of The Logo

The Fadras Group logo is built on a modern geometric composition that combines fluidity with sharp edges, creating a balanced image that reflects both flexibility and strength. The visual symbol represents collaboration and connectivity between the different divisions of the group, while the turquoise green color conveys growth, sustainability, and vitality – embodying the company’s drive for innovation and continuous development.

On the textual level, the word Fadras is highlighted in bold to emphasize stability and strength, while the word Group appears in a lighter weight to bring balance and clarity. This harmony between the contemporary symbol and the clean typography creates a distinctive visual identity that communicates professionalism and the group’s ambition for greater expansion and leadership in the future.

What We Do?

We deliver integrated architectural and construction solutions designed to protect buildings, enhance durability, improve safety, and support high-performance engineering requirements. Our products are engineered to meet demanding site conditions, consultant specifications, and international compliance standards. Every product we manufacture is backed by technical documentation, testing, quality control, and the support of specialized engineers who ensure precise integration with architectural and structural specifications.

What We Do?

Our Product Portfolio covers 10 specialized categories:

Control Joint Systems

Precision solutions that prevent cracking, manage thermal movement, and enhance concrete and finishing surface behavior.

Floor Mat Systems

High-performance entrance and interior mats that reduce dirt transfer, improve hygiene, and withstand heavy use.

Expansion Joint Systems

Engineered floor, wall, ceiling, and roof systems that absorb structural movement while maintaining aesthetics and long-term performance.

Stair Nosing Systems

Durable anti-slip stair profiles designed for safety, visibility, and performance in high-traffic areas.

Wall Protection Systems

Impact-resistant wall guards, corner guards, and handrails that protect interior spaces in commercial and institutional facilities.

What We Do?

Our Product Portfolio covers 10 specialized categories:

Safety & Security Solutions

Specialized products that enhance building safety and operational protection in demanding environments.

Vapor Barriers

Moisture protection solutions that prevent water and vapor infiltration across walls, floors, and roofs.

Parking Protection Systems

Robust rubber and steel solutions—wheel stoppers, speed humps, barriers, and bollards—built for safety and long-term durability.

Fire Barriers

Fire-rated expansion systems that withstand extreme temperatures and meet international fire-safety standards.

Signboard Solutions

Custom signboards that ensure visibility, clarity, and compliance in parking, industrial, and public spaces.

Why Us?

Choosing Fadras Group means partnering with a company built on trust, technical excellence, and proven performance. With a strong foundation in engineering, manufacturing, and project support, we are uniquely positioned to deliver solutions that exceed expectations.

Why Leading Consultants & Contractors Choose Fadras Group

20 Years of Experience

A long-standing presence in the Saudi construction industry with a trusted portfolio of successful mega-projects.

Saudi Manufacturing Excellence

All products are proudly produced in Riyadh, ensuring faster delivery, strict quality control, and full compliance with national regulations.

International Certifications

ISO 9001, ISO 14001, and ISO 45001 certified manufacturing operations guaranteeing quality, safety, and environmental responsibility.

Intensive Technical Expertise

Engineers and specialists support every stage -from design review and TDS to material submittals, mock-ups, and installation guidance.

Why Us?

Choosing Fadras Group means partnering with a company built on trust, technical excellence, and proven performance. With a strong foundation in engineering, manufacturing, and project support, we are uniquely positioned to deliver solutions that exceed expectations.

Why Leading Consultants & Contractors Choose Fadras Group

Proven Track Record in Mega Projects

Approved suppliers for major clients nationwide, including airports, universities, large-scale developments, metro systems, and destinations.

End-to-End Solutions

From product design and manufacturing to documentation, quality testing, and delivery -our processes cover the complete project cycle.

Strong Alignment with Saudi Vision 2030

Contributing to industrial localization, manufacturing development, and sustainable building practices across the Kingdom.

Reliability That Stands Over Time

Our systems are engineered to perform -delivering durability, consistency, and long-term integrity across all applications.

THE FACTORY

Our Factory: Engineering Precision from the Heart of Riyadh

At the core of Fadras Group's manufacturing capability lies our advanced production facility located in Al Sulay Industrial Area, Riyadh. Designed to meet international engineering and quality standards, our factory is equipped with modern machinery, rigorous quality-control systems, and a highly skilled workforce. Every product we manufacture, whether an expansion joint, stair nosing, wall protection system, or parking safety accessory, is crafted with precision, durability, and reliability in mind.

Faster lead times, immediate availability of spare parts, and direct access to our technical and production teams. Our factory stands as a symbol of our commitment to Saudi industrial excellence, supporting the Kingdom's manufacturing sector and contributing to the national goals of localization and sustainability.

New Product Line Powered by Advanced Laser Technology

FADRAS Group introduces its new Queue Management and Crowd Control Solutions, manufactured with high precision using our advanced laser cutting technology. This product line expands our stainless-steel offerings for airports, malls, government buildings, and high-traffic public areas.

Key Advantages

- Precision laser-cut manufacturing
- Premium stainless-steel construction
- Customizable designs and branding
- Durable and stable for heavy-use environments

Strategic Impact

This product line enhances our portfolio, strengthens local manufacturing capabilities, and supports Saudi Vision 2030 through efficient, high-quality, locally produced solutions.

SAFETY & SECURITY SOLUTIONS

Specialized components and protective systems supporting operational safety.

OUR TEAM

People Behind the Performance

Our team is the driving force behind Fadras Group's growth and reputation. With a leadership team that combines strategic vision, operational expertise, and technical excellence, we ensure high-performance outcomes across every project.

Leadership Structure:

Board of Directors

Visionaries guiding the company's strategic direction.

Production & Operations Leadership

Ensuring world-class manufacturing and seamless production cycles.

Sales & Business Development

Building long-term partnerships and expanding market presence.

OUR TEAM

Procurement & Supply Chain

Maintaining quality materials, efficient logistics, and cost-effective sourcing.

Technical Engineering Team

Providing technical documentation, TDS, mock-ups, and consultant coordination.

Finance & Administration

Supporting operations with transparency, compliance, and efficiency.

Together, our teams ensure that every Fadras Group product reflects excellence, reliability, and long-term performance.
